MEMORANDUM OF UNDERSTANDING

BETWEEN

INDIAN TECHNOLOGY CONGRESS ASSOCIATION (ITCA), BENGALURU

AND

MLR INSTITUTE OF TECHNOLOGY (MLRIT)

AND

THE MAZ ISRAEL SATELLITE AND AEROSPACE TECHNOLOGIES LTD (TMISAT)

This Memorandum of Understanding signed on this the 28th day of MAY 2019 at TEL AVIV, ISRAEL between **INDIAN TECHNOLOGY CONGRESS ASSOCIATION (ITCA)**, having its Registered Office at ITCA Secretariat, 4th Floor, #3, First Main, BDA Layout, Kodihalli, HAL 2nd Stage, Bengaluru 560008, **The MAZ Israel Satellite and Aerospace Technologies Ltd (TMISAT)** and **MLR INSTITUTE OF TECHNOLOGY (MLRIT)**, having its Registered Office/Operations at Dundigal, Hyderabad – 500043, Telangana.

Objective

ITCA, a platform for technology adherents working to stimulate multi-disciplinary capabilities in tomorrow's workforce, is actively partnering with Academic Institutions, Industry, and Research labs to conceptualize, develop and launch a distinctive programme of “**India 75 Student Satellites Mission**” through accomplished Institutions in the consortium mode.

MLR INSTITUTE OF TECHNOLOGY (MLRIT) has evinced Expression of Interest (EoI) to ITCA to participate in the envisioned mission to develop Student-Built Satellites in co-operation with international space exploration agencies based on the “**open collaboration philosophy**” paradigm.

THE MAZ ISRAEL SATELLITE AND AEROSPACE TECHNOLOGIES LTD (TMISAT), an expert in satellite technology development partnered with eminent universities in Israel to bring required Aerospace knowledge resource to make Indo Israel Nano Satellite programme a grant success.

This MoU represents an understanding of the Roles and Responsibilities of the Organizations to progress the proposed Student Satellite Mission and provides an umbrella understanding by the participating Organizations to work together to meet the objectives of all aspects of the Student Satellite Mission including training and assessment, mission identification, programme funding, structuring of institution project teams, development of subsystems, satellite assembly integration and test, coordination for regulatory approvals, satellite launch and deployment.

The activities that are envisaged to be progressed under this triparty MoU would include, but are not limited to:

- ITCA agrees to support Education / Training / Multidisciplinary Research & Developmental Projects and Initiatives focused on Student Satellite Development through its members; and Research Personnel / Subject Matter Experts identified by them for the Projects.
- ITCA will lead the activity to identify and enlist Indian Government Departments, Research Organizations and global technology partners, funding agencies in India and abroad, and structure the overall Satellite Development Mission with comprehensive programme management and project management teams for successful mission completion. ITCA will facilitate induction of technology and domain experts from Institutions, Industry and Entrepreneurs to ensure mentoring Institution teams over the duration of the mission.
- ITCA will assist the Institution to raise the capital required for funding this programme either within the country or abroad, as per the terms and conditions mutually discussed and documented in follow-on specific Agreements with stakeholders.

**Indian
Technology
Congress
Association**

- TMISAT will act as knowledge and technology partner to provide expert guidance and support to Indo Israel Space Initiatives.
- MLRIT in association with TMISAT and ITCA will set up Satellite technology development centre in its campus.
- All the agencies, ITCA, TMISAT and MLRIT, - agree through this MoU, to meet periodically to Review and Monitor the progress of the Student Satellite Project and Initiatives.
- ITCA and TMISAT will work with the Institution to develop thought leadership and knowledge repository on student satellites through publications including papers, monographs, filing patents and IPRs. ITCA will support activities including incubation and assisting start-ups.
- Both the Organizations, ITCA and MLRIT, agree to identify responsible persons as Points of Contact, to network and communicate with all the personnel concerned, for effective progressing of the Projects and Initiatives.
- Both the Organizations, ITCA and MLRIT, proactively will provide inputs to strengthen the academic curriculum to meet the needs of the space industry. Students successful in the courses structured as part of the Student Satellite Mission will receive a joint certification from ITCA and the Technology Partner(s) delivering the courses.
- TMISAT will facilitate international collaborations as per the requirements of the Mission.
- MLRIT will demarcate the required area for the set-up of the labs, and provide the necessary infrastructure as per project specifications outlined in the proposal, including electricity, water, plumbing / pneumatic piping, and adequate security, internet for the labs.
- MLRIT to lead governance structure and supervision activities of Satellite Technology development centre and provide accommodation and support to space team.
- TMISAT shall provide training program structure and content and Support complete development of NanoSatellite.
- TMISAT shall act as technology partner to train the students and faculties of the Institute.
- Both the Organizations, ITCA and MLRIT, agree to support each other in organising national and international conferences, symposia, seminars, workshops, training programs, competitions and other such events.
