Evaluation Procedures

The UG research project shall be initiated at the end of the IV Year I Semester and the duration of the project work is one semester. The student must present Project Phase – I during IV Year I Semester before II Mid examinations, in consultation with his Supervisor, the title, objective and plan of action of his Project work to the departmental committee for approval before commencement of IV Year II Semester. Only after obtaining the approval of the departmental committee, the student can start his research project work.

UG research project work shall be carried out in two phases: Research Project Phase – I for approval of project before Mid-II examinations in IV Year I Semester and Research Project Phase – II during IV Year II Semester. Student has to submit research project work report at the end of IV Year II Semester. The research project shall be evaluated for 100 marks before commencement of SEE Theory examinations.

For Research Project Phase – I, the departmental committee consisting of Head of the Department, project supervisor and a senior faculty member shall approve the project work to begin before II Mid-Term examination of IV Year I Semester. The student is deemed to be not eligible to register for the Project work, if he does not submit a report on Research Project Phase – I or does not make a presentation of the same before the evaluation committee as per schedule. A student who has failed may reappear once for the above evaluation, when it is scheduled again; if he fails in such “one reappearance” evaluation also, he has to reappear for the same in the next subsequent semester, as and when it is scheduled.

For Research Project Phase – II, the external examiner shall evaluate the project work for 60 marks and the internal project committee shall evaluate it for 40 marks. Out of 40 internal marks, the departmental committee consisting of Head of the Department, Project Supervisor and a Senior Faculty Member shall evaluate the project work for 20 marks and Project Supervisor shall evaluate for 20 marks. The topics for Industry Oriented Mini Project/ Internship/SDC etc. and the research Project shall be different from the topic already taken. The student is deemed to have failed, if he (i) does not submit a report on the Project, or (ii) does not make a presentation of the same before the External Examiner as per schedule, or (iii) secures less than 40% marks in the sum total of the CIE and SEE taken together.

COURSE OUTCOMES: STUDENTS SHOULD BE ABLE TO

1. Demonstrate a sound technical knowledge of their selected project topic.
2. Design engineering solutions to complex problems utilising a systems approach
3. Conduct an experiments in the engineering project and analysis the data results
4. Communicate with engineers and the community at large in written an oral forms.
5. Demonstrate the knowledge, skills and attitudes of a professional engineer.
